Scenario:

You are a college student in University of South Carolina. You find yourself continuously having trouble with managing time, and have difficult time practicing your favorite hobbies. You would like to use an application which aids your schedule, so you have time practicing various activities.

Task 1: Create a schedule with choosing a number of your favorite hobbies, title it: "Fall Schedule".

Task 2: Browse through existing hobbies with a search bar used to help browsing.

Task 3: Give it a rating of 5 stars, then make a comment: "This really helped me."

Notes

3 things to change:
- Add popular personalized schedule.
- Save Log in details.
- Add more activity options.

3 things to keep the same:
- Easy way of confirming the options.
- An add option at the end of the process.
- Reviewing your schedule before submitting.
